# ATREYO ®
SOLUTIONS THAT SIMPLIFY

# IoT Gateway – Embedded Computer

AG-1601 is multipurpose industrial gateway. Support many types of Linux systems distributions. LTE, GSM, WiFi, Ethernet connectivity and battery backup make this gateway ideal for IoT applications and industrial control systems.

## AG-1601

- Linux Debian, Ubuntu, Yocto etc.
- LTE, GSM connectivity
- Dual Ethernet
- Opto-isolated RS485 and RS232
- 2 digital inputsand 2 NO/NC outputs
- HDM, 2x USBI
- 4 core ARM processor
- Wide power supply range
- Internal battery backup

### APPLICATION
Industry 4.0, infrastructure etc.

INDUSTRY 4.0    SMART CITY    POWER    MINING - OIL
