

## Smart Light Controller NEMA

The ALC-N1 is NEMA socket Light Controller with inbuilt power, voltage and other electricity parameter measurement. Dedicated to use in Atreyo Smart Street Light System.

**ALC-N1**

- ON/OFF and dimming of luminaries
- Electrical parameter measurement
- Long range RF communication
- 0-10V dimming system
- Inbuilt internal redundant schedule
- Encrypted communication
- High Voltage range
- Firmware update over air
- Standard NEMA connector

### APPLICATION

lightning infrastructure etc.
